

Supporting Toddlers with a family connection to autism or ADHD to develop strong Attention, Regulation and Thinking skills

START Feasibility Trial: Participant Consent Form
 Ethics approval reference: R67115/RE001

Parent / Legal guardian consent to take part in the START Feasibility Trial

This study is investigating the feasibility of a Randomised Controlled Trial of the Supporting Toddlers to develop strong Attention Regulation and Thinking skills (START) Programme. Taking part in this study involves completing questionnaires about you and your child, researchers playing with your child to collect information about their strengths and difficulties, and possibly taking part in the 12-week START programme. We would like to see you and your child when they are 20 and 36 months old. You will be asked to sign this form at each visit to confirm that you are happy to take part with your child.
